

Picture	Common Name	Botanical Name	Light Req.	Notes
	Bittersweet, Autumn Revolution	Celastrus scandens 'Bailumn' PP19,811	Full Sun	<p>Height - 15-25' A revolutionary breakthrough in bittersweet culture. Imagine never having to wonder if you're buying or selling a male or female plant again? The majority of the flowers formed on Autumn Revolution™ are perfect, meaning that the flower itself has both male and female parts. In other words, you only need one plant to bear fruit. Perhaps because of this unique characteristic the fruit production is absolutely extraordinary and the berry size is twice that of the species.</p>
	Clematis, Candy Stripe	Clematis 'Candy Stripe'	Full to Part Sun	<p>Height - 10-12' A uniquely colored clematis that performs well in part to full shade! Most clematis prefer full to partial sun, but 'Candy Stripe' is a strong performer in nearly any location. The large 6" flowers are a bi-color lavender with a pink stripe running down each petal. The petals are wide and overlap nicely to make a very full flower. Blooming May and June and reblooming in late August. Good selection for trellis', lamp posts, or on a tall fence.</p>
	Clematis, Comtesse DeBouchard	Clematis 'Comtesse de Bouchard'	Full Sun	<p>Height - 8-12' Flowers are rose-pink, large, semi-double, with yellow stamens. Profuse bloomer.</p>
	Clematis, Ernest Markham	Clematis 'Ernest Markham'	Full Sun	<p>Height - 12-13' Flowers are 4", magenta-red with gold stamens. Blooms early in the summer, and will repeat throughout the summer.</p>
	Clematis, Huldine	Clematis 'Huldine'	Full Sun	<p>Height - 10' Large white flowers with gold stamens. Blooms early in the summer, and will repeat throughout the summer.</p>
	Clematis, Jackmanii	Clematis 'Jackmanii'	Full Sun	<p>Height - 10' Flowers are dark velvet purple, 4". A profuse bloomer.</p>
	Clematis, Nelly Moser	Clematis 'Nelly Moser'	Full Sun	<p>Height - 8-10' Flowers are pale pink with lilac pink bar, 6". Free flowering and compact. Good cutflower.</p>

	Clematis, Paniculata (Sweet Autumn)	Clematis paniculata	Full Sun	Height - 20-25' Flowers are white with pink anthers, 1-2", flowering in clusters, free flowering, very fragrant.
	Clematis, Perle D'Azur	Clematis 'Perle d'Azur'	Full Sun	Height - 10-12' Flowers are a true blue with pale yellow anthers. Free flowering.
	Clematis, Ramona	Clematis 'Ramona'	Full Sun	Height - 10-16' A large-flowered variety, 6"-8" in diameter. Pale lavender-blue flowers with deep red anthers. Blooms from June-Sept. Performs well in hot, sunny sites. Able to twine around narrow supports by use of petioles; ideal for covering fences and trellises with narrow supports.
	Clematis, Sweet Summer Love	Clematis paniculata 'Sweet Summer Love' PP24,044	Full Sun	Height - 20' Wouldn't it be great if Sweet Autumn clematis flowered sooner and longer and came in other colors? Now it does! 'Sweet Summer Love' gives you everything you want: the flowers, the fragrance, the ease of growth and cranberry-violet blooms that start over a month earlier than others. This breakthrough vine is from award-winning clematis breeder Szczepan Marczycki of Poland. It will add drama to gardens when trained up a trellis or other support.
	Clematis, Tangutica	Clematis tangutica	Full Sun	Height - 15-20' Golden yellow, bell-shaped flowers, 1". Attractive seed heads, suitable for cutting.
	Dutchman's Pipe	Aristolochia durior	Full Sun to Full Shade	Height - 30' Vigorous, twining vine. Large, heart-shaped to rounded, dark green leaves. Grows flat against a trellis. Offers dense shade. Flowers brown, small, usually hidden by the leaves, resembles Meershaum pipe, hence the name. Sun or shade. 2006 Plants of Merit®.
	Honeysuckle, Dropmore	Lonicera x brownii 'Dropmore Scarlet'	Full Sun	Height – 10-20' Spread - Varies Tall growing climber. Bright orange-scarlet tubular flowers from June to September. Attractive, rounded green foliage.
	Honeysuckle, Goldflame	Lonicera x heckrottii	Full Sun	Height – 10-20' Spread - Varies Woody vine valued for its rosy-red and yellow flowers from June until frost. Fragrant flowers continue as new growth develops. Attractive oval blue green foliage on purplish-red glaucous stems. Shade tolerant.

	Honeysuckle Vine, Kintzley's Ghost Grape	Lonicera reticulata 'Kintzley's Ghost'	Full Sun	Height – 10-12' Improved selection of the species brought to the Plant Select® program from Fort Collins Wholesale Nursery in Fort Collins, Colorado. Showy yellow flowers cover the vine in June with the distinctive appearance of eucalyptus-like bracts. The vine is easy to grow and is undemanding, requiring only average garden loam and moderate irrigation. The unusual and distinctive appearance makes this a "must have" for gardeners wanting something new and different.
	Ivy, Boston	Parthenocissus tricuspidata	Full to Part Sun	Height - 30-50' Dense, self-clinging vine. Attractive, thick, glossy green foliage with exceptional fall color of orange to red. Blue-black berries favored by the birds. Excellent for covering masonry.
	Ivy, Englemann (Virginia Creeper)	Parthenocissus quinquefolia var. engelmannii	Full to Part Sun	Height - 30-50' A cultivar of P. quinquefolia that has smaller leaves than the species and is also less vigorous. Clings better to masonry than the species. Fall color deep burgundy-red. Small blue fruits attractive to birds.
	Virginia Creeper, Red Wall	Parthenocissus quinquefolia 'Troki'	Full Shade to Part Sun	Height - 3-4' Spread – 3-4' This fast growing, salt tolerant native vine creates a dramatic and colorful green wall, clinging by vigorous tendrils and climbing without support. Small clusters of blue fruit ripen late in season as foliage turns to fire-engine red. Deciduous.
	Virginia Creeper, Yellow Wall	Parthenocissus quinquefolia	Full to Part Sun	Height - 15' Spread - 8-10' A companion plant for Red Wall® Virginia Creeper, this vine is noted for its yellow autumn color. A nice native vine for covering fences and walls quickly. This fast growing, salt tolerant native vine creates a dramatic and colorful green wall, clinging by vigorous tendrils and climbing without support. Small clusters of blue fruit ripen late in season as foliage turns to brilliant yellow. Deciduous.
	Trumpetvine	Campsis radicans	Full Sun	Height - 20-40' Shrubby, coarse foliage on a vigorous, twining vine. Will climb on stone or woodwork. Flowers are showy, orange and scarlet, 2.5-3" long, 1.5" wide at mouth, blooming in mid-summer. For protected locations in zone 4. Cut back to 8" to insure better bud break at time of planting. Yellow-green fall foliage.
	Wisteria, Summer Cascade	Wisteria macrostachya 'Betty Matthews'	Full Sun	Height - 15-20' Blooming in June on new growth, individual flowers are borne on long showy racemes and open as a lovely shade of dark lavender before fading. A beautiful flowering vine which can easily cover an arbor or pergola, creating a cool, shady place. Producing an interesting seed pod in late summer, this vine has lovely multi-season interests and is more reliably cold hardy than other wisteria.
