Sumac	Red, Orange	Full sun to part shade
Nannyberry Viburnum	Red, Purple	Full sun to part shade
Arrowwood Viburnum	Red, Purple	Full sun to part shade

### Root Growth

Planting trees, shrubs, and perennials now, allows the plant to spend its energy on developing its root system, rather than producing fruits or flowers.

### Less Stress

Cooler weather brings less stress on plants in comparison to the intense heat of summer, allowing them to establish roots before winter.
