

Plant Resources

Deer Resistant Plants

While not fool proof, these plants have shown to be highly resistant to deer damage. A good rule of thumb is if the plant has thorns, has a rough texture, or has a constant odor, deer will usually stay away from it. Deer will eat different plants in different places, though, so check with your neighbors to see what they have had success with.

TREES

Buckeye	Ginkgo	Honeylocust	Maple
Catalpa	Hackberry	Lilac	Oak
Elm	Hawthorne	Magnolia	

SHRUBS

American Hazelnut	Honeyberry	
Barberry	Lilac	
Boxwood	Mock Orange	Snowberry
Clethra (Summersweet)	Ninebark	Spirea
Cotoneaster	Potentilla	St. John's Wort
Currant	Rhododendron	Sumac
Dwarf Bush Honeysuckle	Rose	Weigela
Forsythia	Smokebush	Winterberry
